اسئلة المديتيرم والعملية والشفوي

1- It is a problem solving technique that improves the system and ensures that all the components of the system work efficiently to accomplish their purpose

- Design
- planning
- implementation
- analysis

2- Jad is more expensive and can be cumbersome if the group is too large relative to the size of the project

- True
- False

3- Ais someone who is responsible for overseeing all relevant tasks

- Tester
- Analyst
- Project manager
- Developer

4- The project management phase that project manager can create of a specific timetable and use Gantt charts and PERT/CPM charts

- Scheduling
- Planning
- Monitoring
- Reporting

5-develop long range plans, called strategic plans, which define the company's overall mission and goals

- Operational
- Users
- Top managers
- Middle Managers

6- A key part of the preliminary investigation is athat reviews anticipated costs and benefits and recommends a course of action based on operational ,technical , economic , and time factors

- ☐ Waterfall model
- ☒ Feasibility study
- ☐ agile methods
- ☐ structured analysis

7- Preliminary investigation is an important fact finding tool during the systems analysis phase is a planned meeting during which the analyst obtains information from another person

- ☐ False
- ☒ True

8-is easy to understand due to its simple linear structure

- ☐ Object oriented (o-o) analysis
- ☒ Waterfall model
- ☐ Agile methods
- ☐ Structured analysis

9- Imagine building a house what is the phase of SDLC an considering not a step of creating a house, but it's necessary for the health and to keep the project in a strategic fit

- ☒ Planning
- ☐ Analysis
- ☐ Support and security
- ☐ Design

10- The deliverable for the systems analysis phase is the

- ☐ System Design Specification
- ☒ System requirements document
- ☐ Functioning system
- ☐ Fully operational system

11- A is someone who is responsible for overseeing all relevant tasks.

- Developer
- Tester
- **Project manager**
- Analyst

12- The deliverable for the **design phase** is the

- **System Design Specification**
- Functioning system
- System requirements document
- Fully operational system

13- The project management phase that project manager can create of a specific **timetable** and use Gantt charts and PERT/CPM charts

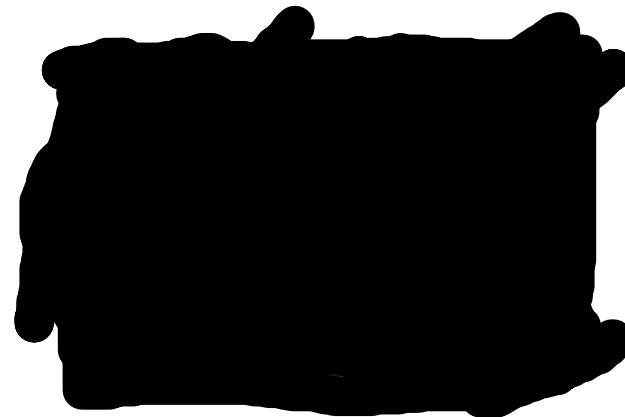

- Monitoring
- Reporting
- **Scheduling**
- planning

14-Is a **traditional** systems development technique that is **time tested and easy** to understand

- RAD
- Agile Analysis
- OOA
- **Structured Analysis**

15- Consists of everything in the **physical layer** of the information system

- Software
- **Hardware**
- Procedures
- People

16- Anis a recognizable reference **point** that can be used to monitor progress.

- ☒ **Milestone**
- ☐ user story
- ☐ activity
- ☐ task

17- It is a problem solving that improves the system and ensures that all the components of the system work efficiently to accomplish their purpose

- ☒ **Analysis**
- ☐ Implementation
- ☐ Planning
- ☐ Design

18- Fact finding means collecting information using interviews or other techniques

- ☒ **True**
- ☐ False

19- The deliverable for the **systems analysis phase** is the

- ☐ Functioning system
- ☒ **System requirements document**
- ☐ Fully operational system
- ☐ System design Specification

20- uml diagrams is abbreviation for

- ☐ unified member language
- ☒ **unified modeling language**
- ☐ unified method language

21- Is the process of **identifying** long term organizational goals strategies and resources

- ☐ System analysis
- ☐ system design
- ☐ system implementation
- ☒ **system planning**

22- Activity diagram is type of

- ☐ o-o diagrams
- ☐ Structural diagrams
- ☒ **behavioral diagrams**

23- The output for **phase 4** of SDLC is

- ☐ System design specification
- ☒ **Complete functioning system**
- ☐ Preliminary investigation report
- ☐ system requirement document)

24- In activity diagram a decision represents a specific location where the workflow may branch based upon guard conditions

- ☒ **True**
- ☐ False

25- Association relationship is a type of use case diagram relationships

- ☐ False
- ☒ **True**

26- Combines information technology people , and data to support business requirements

- ☐ System analysis
- ☐ both1 and 2
- ☐ system analysis & design
- ☒ **information system**

27- An agile approach requires intense interactivity between developers and individual users, and does not begin with an overall objective

- ☒ True
- ☐ False

28-is a set of rules , or ideas that are important in a science or art a particular procedure or a set of procedures

- ☐ Method
- ☐ Function
- ☐ analysis
- ☒ Methodology

29- Is a tradional method for system development that still is widely used

- ☐ both1 and 2
- ☒ structured analysis
- ☐ agile analysis
- ☐ o-o analysis

30- Is a traditional systems development technique that is time –tested and easy to understand

- ☐ Agile analysis
- ☒ Structured Analysis
- ☐ RAD
- ☐ OOA

31- Structured walk – through take place throughout the SDLC and is calledin maintenance phase

- ☐ Planning phase
- ☐ code review
- ☒ test review
- ☐ design review

32- If you need it **good** and **fast** , you would make it

- ☐ Cheap
- ☐ Scaled
- ☒ **expensive**
- ☐ not scaled

33- JAD is **more expensive** and can be **cumbersome** if the group is too large relative to the size of the project

- ☒ **True**
- ☐ False

34- A is **a horizontal bar** figure that represents a set of tasks

- ☒ **Gantt chart**
- ☐ WBS
- ☐ pert /CPM
- ☐ Fishbone

35- IF you need it **good** and **cheap**, you would make it

- ☐ Fast
- ☐ not scaled
- ☒ **not fast**
- ☐ scaled

36- Include users who **rely on transaction** processing systems to enter and receive data they need to perform their jobs

- ☐ Middle managers
- ☐ top managers
- ☒ **operational**
- ☐ Knowledge workers

37- develop long –range plans , called **strategic plans** which define the company's overall mission and goals

- ☐ operational
- ☐ middle managers
- ☐ users
- ☒ **top managers**

38- uml diagrams have only two types those types is **structural diagrams** and **behavioral diagrams**

- ☒ **True**
- ☐ False

39- Which of the following use a **spiral model** based on **user feedback**

- ☐ o-o analysis
- ☐ structured analysis
- ☒ **agile method**

40- in use case indicates the scope of your system anything within the box represents functionality that is in scope

- ☐ Activity or action
- ☒ **system boundary**
- ☐ actor

41- Combines information technology, people, and data to support business requirements

- ☐ system analysis
- ☒ **information system**
- ☐ system analysis & design
- ☐ both 1 and 2

هابي نيو ييبير

42- **SDLC** is an apperivation for

- **System development life cycle**
- system development length cycle
- system deployment life cycle

43- **Who plan, develop, and maintain** information systems

- Information system
- **system analyst**
- both1 and 2
- system designer

44- Which of the following is called **a process centered technique**

- agile method
- **structured analysis**
- o-o analysis

45- Set of scenarios that describing an interaction between a user and a system

- activity diagram
- **use case diagram**
- DFD diagram
- class diagram

46- The output for phase **4 of SDLC** is

- system requirement document
- **complete functioning system**
- preliminary investigation report
- system design specification

47- Describe the **static** relationships between components

- Behavioral diagrams
- **structural diagram**

قبل المذاكرة:

اللهم اني أسألك فهم النبيين، وحفظ المرسلين، و الملائكة المقربين، اللهم اجعل ألسنتنا عامرة بذكرك، وقلوبنا بخشيتك، و أسرارنا بطاعتك، إنك على كل شيء قدير، حسبنا الله و نعمالوكيل..

بعد المذاكرة:

اللهم اني أستودعك ما قرأت و ما حفظت وما تعلمت، فردّه عند حاجتي إليه، إنك على كل شيء قدير، حسبنا الله و نعمالوكيل..

اسئلة ميد جزء تانى

1- include users who rely on transaction processing systems to enter and receive data they need to perform their jobs

- ☐ Middle managers
- ☐ **operational**
- ☐ top managers
- ☐ knowledge workers

2- is many times prefer industry observers predict thatsales will increase sharply as more firms seek to improve efficiency and reduce costs

- ☐ C2C
- ☐ B2C
- ☐ **B2B**
- ☐ NONE OF THEM

3- Waterfall models definitely not a great choice complex and long – term project

- ☐ **True**
- ☐ False

4- The concept about how to develop with some special design patterns as the class is a blueprint of the objects the system component now isto be phased and prototyping

- ☐ Modular
- ☐ monolith
- ☐ Heavy
- ☐ **Grained**

5- The difference is that JAD focuses on team based fact finding which is only one phase of the development process where as RAD is more like a compressed Version of the entire process

- ☐ False
- ☐ **True**

6- Whereas structured analysis treats processes and data as , object – oriented analysis combines data and the processes that act on the data into things called

- ☐ Composed components – objects
- ☒ Separate components – objects
- ☐ Composed components – Actors
- ☐ Separate components – Actors

7- Structured analysis is based on overall plan, similar to a blueprint for constructing a building, so it is called a

- ☐ Posting Approach
- ☒ Predictive Approach
- ☐ Descriptive Approach
- ☐ Prescriptive Approach

8- There are no working models of the software until the end of the life cycle of spiral model

- ☐ True
- ☒ False

9- It is impossible to make changes at the later stage in the Waterfall model

- ☐ False
- ☒ True

10- Top managers develop long –range phase called Which define the comparative overall mission and goals?

- ☐ Routine plan
- ☒ Strategic plan
- ☐ Business model canvas
- ☐ Current plan

11-is a traditional systems development technique that is time –tested and easy to understand

- OOA
- **Structured Analysis**
- RAD
- Agile Analysis

12- The objective during Phase is to maximize return on the IT investment (ROI)

- **Support and Security**
- Implementation
- Analysis
- Planning

13- The purpose of this phase is to perform ato evaluate an IT related business opportunity or problem. Is a critical step because the outcome will affect the entire developments processes

- Writing code
- Testing changes
- **Preliminary investigation**
- Checking the security
