(true/false)? in the same origin policy, when Two pages have the same origin, then they must have the same creation date

الإجابة

○ True
◉ False

(true/false)? Jmeter is an open source tool

الإجابة

○ False

● True

_____ happens when a hacker inputs some SQL commands instead of normal text input to web page الإجابة

○ overflow

◉ cross site scripting (xss)

○ SQL injection

(true/false)? A banner advertisement is a thin horizontal graphic that stretches across a screen to promote a brand or product.

الإجابة

○ True
○ False

Testing mobile applications on real devices is _____
than testing on emulators

الإجابة

- more expensive
- slower
- less accurate

(true/false)? in the same origin policy, when Two pages have the same origin, then they must have the same programming language

الإجابة

○ True

● False

_____ is the Input / output operations completed per second

○ IOPS

○ Response time

○ Latency

A _____ advertisement is a window that appears on the top of your screen and overlay the host website s page. تظهر فوق الشاشة الأصلية كطبقة اضافية

الإجابة

O Mobile Video

O banner

O Pop ups

(true/false)? Cross-platform mobile applications have more access to hardwere than Native mobile applications

الرجية

- ○ True
- ○ False

MVC is a Framework
الإجابة

- ○ True
- ○ False

It consists of a detailed plan describing how to develop,
maintain, replace, and alter or enhance specific
software.

الإجابة

- ○ SCLD
- ○ SDLC
- ○ SDCL

The process of solving the bugs .

الإجابة

- ○ Selenium
- ○ Profiling
- ○ Debugging

It is designed to analyze and measure the performance and load functional behavior of web application and variety of services.

الإجابة

○ Web Driver

○ Selenium

○ Jmeter

The smallest piece of code which takes an input, does certain operation, and gives an output.

الإجابة

○ Unit

○ Class

○ Partition

Jmeter doesn't support multi protocols

الإجابة

○ False

○ True

(true/false)? The In app purchases (Freemium games) technique is let the all the game features free for all users without the need to buy any thing الإجابة

○ True

○ False

(true/false)? The In app purchases (Freemium games) technique is make the basic game free, and offer some additional features with an additional cost.

الإجابة

○ False

○ True

(true/false)? in the same origin policy, when Two pages have the same origin, then they must have the same programming language الإجابة

○ False

○ True

(true/false)? Native mobile applications have more access to hardwar

Cross-platform mobile applications

الإجابة

○ True

○ False

The TestFixture attribute used before every method in the unit testing code.

الإجابة

◉ True

○ False

The Test attribute identifies that the class that is to be tested
الإجابة

○ False

◉ True

(true/false)? One technique to avoid SQL injection is to use Allow List input validation

الجواب

○ True

○ False

(true/false)? One technique to avoid SQL injection is to use Properly Constructed Stored Procedures

الإجابة

○ False

◉ True

the worst CMMI level is level ____

الإجابة

- ○ one
- ○ five
- ○ two

_____ box testing is to test the application without having the source code of the application

الإجابة

- ○ red
- ● black
- ○ white

static code analysis is based on examination of project documentation of software models and documents without running the application code in runtime

الإجابة

○ False

◉ True

(true/false)? in c#, a class is a reference type

الإجابة

○ True

○ False

_____ box testing is to test the application without having the source code of the application

الإجابة

- ⭘ red
- ⭘ white
- ⭘ black

_____ is one of Size Oriented Metrics to measure software

الإجابة

- ⦿ KLOC
- ◯ LLOC
- ◯ KKOC

_____ problem occurs when a large data size is written into a smaller buffer

الإجابة

- ○ Buffer Overflow
- ○ sql injections
- ○ golden memory

(true/false)? Cross Site Scripting (xss) attack happen when user inputs SQL text instead of normal data

الإجابة

○ False

◉ True

in web engineering, if all pages in a web site are DYNAMIC, then the customization index value is _____

- [ ] 1000
- [ ] 0
- [ ] 1

(true/false)? in c#, (int) is a reference type

الإجابة

○ False

○ True

_____ Injection arises when user-specified input is directly handed over to the operating system

الإجابة

○ OS Command

Please select one of these options.

○ stack

_____ mobile application is a cross platform technique that uses HTML 5,CSS 3 and JavaScript

مراجعة

- cross compilation
- mobile web
- native

It means that the program is currently paused on a specific line of code.

الإجابة

- stop mode
- pause mode
- • break mode

it handles the order of processing Samplers/Requests in a Thread.

الإجابة

Samplers

= Logical controller

Thread group

(true/false)? Time based Utilization is easier to measure than Capacity based

الإجابة

○ False

● True

A _____ advertisement is a thin horizontal graphic that stretches across a screen to promote a brand or product.

الدرجة

- banner
  Mobile Video
  Pop ups

_____ XSS attack requires a user to visit the specially crafted link by the attacker. When the user visit the link, the crafted code will get executed by the user's browser.

الإجابة

O NonPersistent

O Persistent

O overflow

It is designed to analyze and measure the performance and load functional behavior of web application and variety of services.

الإجابة

- ⭘ Web Driver
- ⭘ Selenium
- ⭘ Jmeter

_____ is one solution for clickjacking attack

الإجابة

Chatbot

Cross Site Request Forgery (CSRF)

Framebusting

(true/false)? SQL injection can be done when a hacker inputs normal text input to web page

الجواب

- ● False
- ○ True
