

Open Source Lecture 3

1-SVG is an XML grammar for syllable graphics that can be used as in XML namespace.

- a- True
- b- False

Answer : a.

2- Scalable meaning the technology can grow to include large number of users and files and still be _

- a- Efficient
- b- Effective
- c- Both
- d- None

Answer : c.

3- Vector graphics has a greater flexibility than raster only formats.

- a- True
- b- False

Answer : a.

4- ____ is a web format that allows content developers to create two dimensional graphics in a standard way by using an XML grammar .

- a- SVG
- b- BMP
- c- JPEG
- d- None

Answer : a .

5- The SVG tag contains the image elements and defines the frame of our image , sets the inner size and out size of the image as well.

- a- True
- b- False

Answer : a.

Open Source Lecture 3

6- An SVG element which groups separate elements :

- a- group
- b- g
- c- element
- d- none

answer : b.

7- SVG element when creates a rectangle.

- a- rec
- b- rect
- c- rectangle
- d- none

answer : b.

7-Which stroke element defines the thickness of text , line or outline any element.

- a- stroke
- b- stroke-width
- c- stroke-linecap
- d- stroke-dasharray

answer : b .

8- Which stroke element is used to crate dashed lines .

- a- stroke
- b- stroke-dash
- c- stroke-linecap
- d- stroke-dasharray

answer : d.

9- “stroke” defines the color of text , line or outline of any element.

- a- True
- b- False

Answer : a.

Open Source Lecture 3

10- Which attribute is used to “declare the color of rectangle for example “ .

- a- color
- b- background-color
- c- fill
- d- stroke

answer : c, note (that's in svg tags)

11- Which attribute is used to represent the color of line .

- a- color
- b- background-color
- c- fill
- d- stroke

answer : d.

```
<svg height="300" width="300"
  <path d="M 100 100
        fill="#59fa81
  </svg>
```

12- To declare which direction the path “line” goes we use the “d” attribute.

- a- True
- b- False

Answer : a. note (it's the most complex)

command name, and a set of coordinates.

- **M** means Move, it accepts a set of coordinates x, y
- **L** means Line, it accepts a set of coordinates x, y to draw the line to
- **H** is an Horizontal Line, it only accept an x coordinate
- **V** is a Vertical Line, it only accept an y coordinate
- **Z** means Close Path, puts a line back to the start
- **A** means Arch, it needs a whole tutorial on its own
- **Q** is a quadratic Bezier curve, again it needs a whole tutorial on its own

Note : these are the values that d contains to check the direction

Open Source Lecture 3

13-all transformations can be expressed as a matrices using ____.

- a- translate
- b- rotate
- c- scale
- d- matrix

answer : d.

14-What is inkscape ?

- a- a vector graphics editor
- b- free and cross platform
- c- easy to use
- d- all above

answer : d, note (" its not for bitmap editing , but for vector graphics editor)

15-Which key is constrain to Constrain height/width ratio in inkscape

- a- Control
- b- Shift
- c- Windows
- d- Command

Answer : a , note ("the question is for windows users , so I don't need a mac comment lol ")

16- The shift key grow from center instead of edges.

- a- True
- b- False

Answer : a , note (this is more practical , so it's quite difficult to make a question , pardon me)

17- Which selecting technique is used to select multiple objects.

- a- Drag a box to cover multiple objects
- b- Shift + click to add an object to a selection
- c- Shift + click on a selected object to remove it from the selection
- d- All above

Answer: d.

Open Source Lecture 3

17- Stroke options in Inkscape are related to

- a- Width of line
- b- Shape of corners
- c- Shape of line ends
- d- All above

Answer : d.

18-it's better to align elements by eye.

- a- True
- b- False

Answer : b , note (" tell me you are a sniper without telling me ")

19- To set an object on top of other or visa verse . we use

- a- X axis ordering
- b- Y axis ordering
- c- Z axis ordering
- d- None

Answer : c.

20-Imagine working with bitmaps on Inkscape which way you might use of"importing" if you prefer a large file sizes and portable.

- a- Embed
- b- Link
- c- Any

Answer : a , note (Link one is a smaller size and can update original but cant move file easily)

21- Sounds can vibrate and travel through air only.

- a- True
- b- False

Answer : b, explanation (" logically any medium but with difference db)

Open Source Lecture 3

22-Loudness or intensity of sound is measured in ____

- a- dB
- b- Hertz
- c- Bit/sec
- d- None

Answer : a, note (the frequency of sound is measured in Hertz)

“The next couple of questions are related to the Anatomy of a sound wave “

23-____ is the base line .

- a- Rest
- b- Crest
- c- Trough
- d- Wavelength

Answer :a .

24- Crest points that exhibit maximum amount of downward displacement from the rest position.

- a- True
- b- False

Answer : b , explanation (its ‘Trough’ but Crest exhibits the maximum amount of upward)

25- Wave length is the distance from crest to crest.

- a- True
- b- False

Answer : a.

26- The amplitude is the distance from rest to rest or rest to trough .

- a- True
- b- False

Answer : b, explanation (from rest to crest or rest to trough)

Open Source Lecture 3

27- Pitch actually means how High the tone or the quality of the sound.

- a- True
- b- False

Answer : a.

28- Analog sound is a continuous phenomena such as speaking but computers can deal with discrete information only so the analog is converted to digital and this is called ____.

- a- Sampling
- b- Digitizing
- c- Both
- d- None

Answer : a.

29- ____ the rate or frequency at which a sound is sampled to digitize it .

- a- Sample rate
- b- Bit rate
- c- Wave form

Answer : a. note (the bit rate is bit/sec and it's the number of computer bits that are conveyed)

“Next questions are related to audio software terms “

30- ____ is a short segment of audio.

- a- Waveform
- b- Clip
- c- Track
- d- None

Answer : b.

31- Track is an area upon which audio clips moves may be a single waveform or made of many clips .

- a- True
- b- False

Answer : a, note (“track is also called a channel “)

Open Source Lecture 3

32- When a channel is single we call it ____.

- a- Uno
- b- Mono
- c- Stereo
- d- None

Answer : b , note (and Stereo uses two channels “ use both ears “)

33- The term Trim removes non selected sides from left and right of selected audio.

- a- True
- b- False

Answer : a.

34- Amplify changes the volume of non selected audio.

- a- True
- b- False

Answer : b .

35- Which of these exporting audio formats is open source.

- a- Mp3
- b- WAV
- c- Ogg
- d- AIFF

Answer : c.

36 – The more your video with quality the bigger the file size will be

- a- True
- b- False

Answer : a.

37- Video resolution is measured as width by heigh using pixels as unit.

- a- True
- b- False

Answer : a.

Open Source Lecture 3

38- The lowest HD resolution is _

- a- 1080
- b- 720
- c- 2k
- d- 4k

Answer : b. note “ its called HD”

Note (720 = HD , 1080 = Full hd , 2k or QHD = quad high definition , 4k = ultra hd)

39- _____ it compresses and decompresses the video.

- a- Code
- b- Codec
- c- Compressor
- d- None

Answer : b.

40- Lossy codecs compress the video by losing details of the video .

- a- True
- b- False

Answer : a, note (Lossless on the other hand doesn't loooooooooooooose “)

41 – Which of these formats has a high degree of compression ,contains metadata and Verastile with two extensions .

- a- MP4
- b- MKV
- c- AVI
- d- MOV

Answer : a. , note (Personally I like MOV)

42- WEBM is googlebacked video format with low quality and doesn't support firefox.

- a- True
- b- False

Answer : a, note (“Sorry for Linux users who use's fire fox and never opened a webm in their life lol “)

Open Source Lecture 3

43 – Compatible with most formats but has a large file size and lossy video compression.

- a- MP4
- b- MKV
- c- MOV
- d- None

Answer : c.

“I guess this is enough , sorry and thanks guys :D “
