

Open Source Lecture 1

1-An open source term refers to software which source code is freely available for ____.

- a- Viewing
- b- Amending
- c- Adapting
- d- All above

Answer : d.

2-All free software's are open source because you don't have to pay money to download them.

- a- True
- b- False

Answer : b , note (imagine having the source code for Microsoft 365 apps :”D)

3-Freeware refers to free software .

- a- True
- b- False

Answer : b.

4- Freeware are Software's where they permits redistribution but not modification in their source code.

- a- True
- b- False

Answer : a.

5- Most paid apps gives you a 7 day's free trial , what can we call this type of software ?

- a- Freeware
- b- Free software
- c- Shareware
- d- Sharefair

Answer : c .

Note : Twitter algorithms will be “Open source” for anyone soon :’D special thanks to Musk

Open Source Lecture 1

6-Which software Terminology refers to a non profit corporation dedicated to managing and promoting the open source definition .

- a- FLOSS
- b- FSF
- c- OSI
- d- W3C

Answer : c.

7- W3C , it's responsible for producing the software standards for world wide web .

- a- True
- b- False

Answer : b, note (you've seen this "W3C" many times if you're a web developer mostly)

8- Which of these OS's is not an open source .

- a- Linux
- b- Ubuntu
- c- Android smart
- d- Windows

Answer : d , note (shoutout to the best Cyber security guy 'Zeyad')

9-Gimp , blender , audacity all of these apps are free and "Open source " .

- a- True
- b- False

Answer :a.

10-_____ standards , are those for which users have to buy license to use them

- a- -Proprietary
- b- Open
- c- Closed
- d- None

Answer : a.

Open Source Lecture 1

11- Which of these is / are Open standard format examples .

- a- JPEG
- b- PNG
- c- OGG
- d- All above

Answer : d .

12- License ____.

- a- Grants permission to use a copyrighted work
- b- Grants any or all of the rights associated with copyright
- c- Doesn't transfer ownership of copyright
- d- All above

Answer : d.

13-a_____ is a contract between the software owner and the licensee defining terms of use of software.

- a- Software license
- b- Car license
- c- Work license
- d- None

Answer : a.

14-_____ is used to ensure that open soruced intellectual property and software can be copied or distributed as open source .

- a- Copy right
- b- Copy left
- c- Cut right
- d- Cut left

Answer : b.

15- They two kinds of copyleft , the strong and weak one .

- a- True
- b- False

Answer : a.

Open Source Lecture 1

16- all opensource licenses have a copyleft .

- a- True
- b- False

Answer : b.

17- _____ , when you cannot mix strong licensed software with closed – source .

- a- Strict licenses
- b- Permissive licenses
- c- None
- d- Both

Answer : a.

18- _____ , when products usually can be mixed with closed software or a totally open-source license.

- a- Strict licenses
- b- Permissive licenses
- c- None
- d- Both

Answer : b.

19- Usually strong copyleft licenses are also strict and weak copyleft licenses are more permissive .

- a- True
- b- False

Answer : a.

20- Which of these licenses has a strong copyleft , strict and quite viral .

- a- GPL
- b- MIT License
- c- Mozilla (MPL)
- d- All above

Answer : a.

Open Source Lecture 1

21-MIT license is very permissive and non-copyleft .

- a- True
- b- False

Answer : a.

22-Licensors usually make money with open source software's by providing some services such as :

- a- Support
- b- Training
- c- Integration
- d- All above

Answer : d.

23- Version control systems record changes to a file or set of files over time so that you can recall specific versions later .

- a- True
- b- False

Answer :A .

24- Version control systems like git help's you with :

- a- Tracking changes
- b- Backup and restore
- c- Synchronization
- d- Collaboration
- e- All above

Answer : e.

25- git must keep track of all files in your working directory .

- a- True
- b- False

Answer : b.

Open Source Lecture 1

26- Master branch is the default which Git commits in , and a branch is a pointer to the latest commit in the git repo.

- a- True
- b- False

Answer : a .

27- in git ____ is referred to the remote repository where you want to publish your commits.

- a- Master
- b- Origin
- c- Local repo
- d- None

Answer : b .

28- which command get's a list of all branches in local .

- a- git branch local
- b- git branch
- c- git branch locally
- d- git branch please

answer : b . note (the git commands are lower case commands)

29- To create a new branch called “ BabaBoe” we use the command

- a- git branch Baba
- b- git branch BabaBoe
- c- git branch Boe
- d- none

answer : b .

30- to verify the commit history we use “ git log “ ..

- a- True
- b- False

Answer : a .

Open Source Lecture 1

31- _____ is a version control system that lets you manage and keep track of your source code history.

- a- Git
- b- Git hub
- c- Local computer
- d- None

Answer : a.

32- Git is a short term for github .

- a- True
- b- False

Answer : b, note (they're not the same at all , git is a software and github is a service)

33-which command creates a new git repo.

- a- git init
- b- git clone
- c- git add
- d- git commit

answer : a.

34- which command tells git that you want to include updates in a particular file in the next commit.

- a- git update
- b- git clone
- c- git add
- d- git commit

answer : c.

35- 'git push' command is to transfer commits from your local repo to a remote repo.

- a- True
- b- False

Answer :a.

Note : " github is like a game , just need practice nothing else "

Open Source Lecture 1

36- to import commits from a remote repo to your local repo we use .

- a- "git pull"
- b- "git fetch"
- c- "git execute"
- d- "git hub "

Answer : b . note " the git pull command merges the upstream changes into your local repo "

37- which command can be done with "git fetch " and followed by " git merge "

- a- "git pull "
- b- "git fetch-merge"
- c- "git ultimate"
- d- None

Answer : a.

38- the first step before pushing anything into your repo , is identifying your self by letting git know your user name and email (both need to be legit or the email atleast)

- a- True
- b- False

Answer : a .

39- which commands get's you the help page .

- a- git help
- b- git ?
- c- git help page
- d- git please

answer : a .

40-to copy the repo to your current directory we use " git clone " command

- a- True
- b- False

Answer : a.

Open Source Lecture 1

41- The message in git commit -m "msg" is not necessary.

- a- True
- b- False

Answer b ,

42- "git status " reports ____.

- a- Files in the working directory that are not tracked
- b- File modifications not yet stages for commit
- c- Files additions and modifications stages for commit
- d- All above

Answer : d.

43- you can push your work before committing

- a- True
- b- False

Answer : b .
