

Open Source Lecture 2

1-DPI refers to ____.

- a- Dubai Power Industry
- b- Dots Per Iron
- c- Dots Per Inch
- d- None

Answer : c . note (PPI refers to pixels per inch)

2- The DPI the more quality to the image.

- a- True
- b- False

Answer : a.

3- _____ is an artifact , that has a similar appearance to some subject usually a physical object or a person.

- a- Image
- b- Block
- c- Both
- d- None

Answer : a.

4- Images can be rendered manually or automatically

- a- True
- b- False

Answer : a, note (manually by drawing or painting , and automatically by printing or any app)

5- Digital images are electronic snapshots taken of a scene , sampled an mapped as grid of dots or pictures .

- a- True
- b- False

Answer : a. note (digital images refers to raster images also called bitmap images)

Open Source Lecture 2

6- Raster images have an infinite set of digital values.

- a- True
- b- False

Answer : b , explanation (finite)

7- ____ images resulted from mathematical geometry .

- a- Raster
- b- Digital
- c- Vector
- d- None

Answer : c.

8- Which of these formats is a Vector one.

- a- JPEG,GIF,PNG,WebP
- b- PDF,TIFF
- c- AI,SVG,EPS,PDF
- d- None

Answer : c.

8- An advantage of Raster formats that it's Precise while editing , the color information can be adjusted one by one .

- a- True
- b- False

Answer : a.

9- A huge problem with Raster formats , they get Blurry when Enlarged .

- a- True
- b- False

Answer : a. note (large file size is a con as well)

Open Source Lecture 2

10- JPEG stands for Joe Poe Elo Good .

- a- True
- b- False

Answer : b, explanation (Joint Photographic Expert Group)

11- JPEG Supports

- a- 8 bit grayscale
- b- 24 gray scale
- c- A and B
- d- Tottenham

Answer : c, note (who supports Tottenham ? , it's a joke btw - > Mohanned)

12- _____ is the class of data encoding methods that uses inexact approximations to represent content.

- a- Lossy compression
- b- Loseless compression
- c- Both

Answer : a .

13-BMP format is windows bitmap which works very fine with Microsoft windows OS , uncompressed which means a large file.

- a- True
- b- False

Answer : a, note (Mac user's don't care I guess)

14- _____ is the most effect for storing graphics with few colors such as simple diagrams .

- a- PNG
- b- JPEG
- c- GIF
- d- BMP

Answer : c.

Open Source Lecture 2

15- PNG is a raster graphic file which does support non RGB color spaces such as CMYK.

- a- True
- b- False

Answer : b, explanation (Doesn't support non-RGB color spaces)

16-An advantage of vectors ____

- a- Scalability
- b- Ease of editing
- c- High Quality
- d- All above

Answer : d.

17- A huge disadvantage of vectors is “ they're quite complex “ and expensive software might needed)

- a- True
- b- False

Answer a .

18- SVG enables the viewing of an image on computer display of any size and resolution.

- a- True
- b- False

Answer : a.

19- PDF can be either a vector or raster , and recommended when you want to present a file to someone without editing .

- a- True
- b- False

Answer : a.

20- If you reduce image size by half the size saving is 0.5 .

- a- True
- b- False

Answer : b , explanation (absolutely not , because images are squared , the saving will be 0.25)

Open Source Lecture 2

21- When ____ an image you are asking the software to show you only what you want to see.

- a- Color correcting
- b- Cropping
- c- Selecting
- d- Scaling

Answer : b.

22- Red eye adjustment can be considered a color correction .

- a- True
- b- False

Answer : a.

23-When you want to select a specific part of an image you can use magic wand or a pen tool

- a- True
- b- False

Answer : a.

24-Layering is used in photoshop to separate different elements of an image from others .

- a- True
- b- False

Answer : a.

“ UI and Graphic designers : That’s too easy “

“ Me: alright , see you at the networking lecture “

“Thanks”
