

Agile Course

Week 07: User story

Ahmed Kord

Outline

- ❖ User Story
- ❖ Acceptance criteria
 - ❖ Acceptance criteria Example
- ❖ User Story Templates
- ❖ Practical Part – on Software Program

User story

- User story is a simple description of a product feature that is written from end users point of view.

❖ The Card

User story Cont.

- User story is a simple description of a product feature that is written from end users point of view.

❖ The Card

**As a user, I want to
purchase a book.**

**As a user, I want to cancel
an order.**

User story Cont.

As a <user type>
I want to <perform task>
so that I can <achieve a goal>

User story Cont.

❖ What is a “User Story”?

❖ Card

- Stories are traditionally written on index cards.
- Cards may be annotated with notes, estimates, etc.

❖ Conversation

- Details behind the story come out during conversations with customer, product owner

❖ Confirmation

- Acceptance tests validate the story was correctly implemented in the application
